

# LEARNING AT HOME

## “Live” Online Learning Tips for Students

**Find a quiet, comfortable space in which to work.** A table or desk is preferable.

**Be punctual.** You should login at least 5 minutes before the session begins so your educator can help you with any issues. If you are unable to attend the scheduled session, your educator will upload a video of the lesson for you to view at a later time.

**Dress appropriately.** Uniforms are not necessary while you are learning at home, but we do expect you to wear clothing appropriate to the learning environment.

**Mute your microphone when you're not speaking.** Even though you may think you're being quiet, microphones can pick up minor background noise, such as coughs, whispering, typing and televisions.

**Be respectful of your educators and classmates.** You are expected to behave as you would in the classroom, including using appropriate language and interacting positively with your classmates.

**Using the camera on your computer is optional.**

Remember, if your camera is on, everyone will be able to see you what is going on in your immediate area. Consider your background before using your camera.

**Your educator will let you know how questions can be asked.** Be sure to take the opportunity to ask questions if you are unclear about something.

**When the session is over, your educator will ask you to leave the web conference.** Be sure to leave the conference when asked. Your educator will be the last one to leave.

**Although online learning is not for everyone, try your best.** There is still important learning that needs to happen before school ends. Your educator is here to help you be as successful as you can. Give it your best!

**Never share your password.**
